Procore + Sage 100 Contractor Integration by HH2

Controlled access to accurate project and cost data, all in one place.

CONNECT THE OFFICE AND FIELD

Align project management + accounting using Procore's seamless cost side integration with Sage 100 Contractor. Synchronize cost data for all your projects in one location, reduce double entry, and have full visibility into the financial health of your projects in real time.

MAKE DECISIONS CONFIDENTLY

Procore automatically syncs data from accounting for commitments, actual costs, change orders, and more. With real-time access to current financial information you reduce the risk of costly errors due to double entry, improve accounting-to-field communication, and help project teams make more accurate and better-informed decisions.

WORK INDEPENDENTLY FROM ACCOUNTING

Manage the cost side of projects within Procore at anytime, from anywhere—without having to wait on accounting reports or data requests.
