With the Award winning Speedy Organizer – Document Management System, everything your business has worked so hard for can now be secured, then found with the simple stroke of a computer key. Combined with any scanner or digital copier, Speedy Organizer allows businesses to convert paper records to digital files, a **stress-free** way to store them and finding them **has never been easier**. Why? Speedy Organizer has redefined document management with the ability to search files up to 25 different ways, we are the only document management to offer the “find any file” guaranty. Every organization wants to reduce and secure paper files, maybe you're just not sure how to get started. – With the Speedy Organizer It's **simple!** All you need to do is select the type of company or department you are, then the software actually sets everything up for you! Do you need a special or custom feature? Don't worry! Speedy Organizer covers that too, since all changes are made right within the software. Lets face it, Microsoft file folder system makes it hard to find files, (taking too long to find files searching under vague details). You need a way to manage all of those files. Speedy Organizer offers the most advanced search technologies the same systems that fortune 500 companies use to find their information. Your business and information is worth this small investment, isn't it time for the Speedy Organizer.
